

Animal Communication Seminar and Fundraiser for BrightHaven

Animals communicate using the universal language of telepathy and love it when we hear their “voices.”

Everyone speaks this language—even you! It just takes training and practice.

Bridge the communication gap between you and your animals using proven techniques and exercises, as you experience sending and receiving telepathic messages with a variety of animals, including the BrightHaven residents and your own animal family at home.

This class will give you a good sense of how animal communication works and how it can help you better understand your animals’ behaviors, health and needs, as you discover new ways to enjoy and love them.

Recommended for all skill levels, even if you have taken other animal communication classes.

To register or for more information, call 925.671.9208.
