

“SUZY Q”

THE FACTS:

DATE OF BIRTH: approx July 1993
ARRIVAL AT BH: 26th Sept 1993

MY HEALTH:

I am very fragile, have a nervous tick and am very ill. No? Well they say I actually have nothing really badly wrong, but I know better – really!

MY VETERINARIAN:
is Dr Francie Rubin who also looks after my Mum! She understands my sensitivities and helps me to feel better, thankfully.

THINGS I WOULD LIKE YOU TO KNOW ABOUT ME:

I have lived with Gail and Richard for a very long time – actually since I came to BrightHaven as a baby with my Mother, brothers and sister. Frank and Sophia got adopted, but I was too scared and shy of strangers – so no one wanted me but Gail and Richard!!

Stefanie is my Mum, and I have always loved her with every fiber of my being.

I adored Derek – Mummy did too, but she never had any time for me at all.

I was so sad and always made her angry when I cried for her attention.

When Derek died I wanted to be with her more and help and love her, but she became cross with me and pushed me away.

Since she was very ill we spend a lot of time together, and I think she actually loves me at last!

I stay as close to her as I can – I love her so very much.

I love Gail and love being able to talk to her, and have her understand me – they call it communication!

I am a terrible worrier – just can't stop. or help it. Please love me.....
